EDUCATION

Nazarbayev University   Nur-Sultan, Kazakhstan
BSc in Computer Science   *Aug. 2019 – May 2023*

PROJECTS

VA | *Firebase, Firestore, React, Redux*   May 2020 – August 2021
Personal Project, Timetable App   *bit.ly/3zDWi7I*

- Provided more than a **1000 of students** with a pleasant Drag-n-Drop schedule building experience using **React** and **React DnD**
- Implemented the backend on **Firebase Functions**, while storing the data in **Firestore**
- Employed **Redux** for local state management and caching

VA 2.0 | *Django (DRF), React, Redux*   May 2022 – Present
Personal Project, Timetable App, WIP   *bit.ly/3Hqkdcz*

- Given the prototypical nature of the original app, **rewrote** it in a more manageable manner
- Implemented a **REST API** powered by **Django**, **Django REST Framework**, and **PostgreSQL**
- Currently rewriting the front end part of the app in **TypeScript**

Bevy | *Rust*   February 2022 – Present
Open Source Game Engine   *bit.ly/39oJlEa*

- Contributed a number of valuable **bug fixes** affecting the engine's camera system
- Actively participated in testing, code reviews, and technical discussions

bookshelf | *Rust*   October 2021 – Present
Personal Project, Book Organizer, WIP   *bit.ly/3Od8KPY*

- Currently working on a simple document organizer with bibliographies, CLI and TUI in mind

EXPERIENCE

iOS App Translator   Sep. 2017 – Sep. 2019
Class Timetable LLC   *Freelance*

- **Translated** Class Timetable, a great iOS application for building a school timetable with more than **7 million downloads**, into Russian and Kazakh

SKILLS

Languages: Rust, Python, JavaScript/TypeScript, C/C++, Java, SQL
Frameworks: Django (DRF), Node.js (Express.js), React, Redux
Tools: Linux, Git, Docker
